Public Law 108-79
Annual Statistical Report
&
Assessment of Data Review
(28 C.F.R. §115.88)
2022**

Background

The Prison Rape Elimination Act of 2003 (**PREA**) was passed by the U.S. Congress and was created for the protection of incarcerated individuals against sexual assaults by other incarcerated individuals or staff members while confined in various adult and juvenile facilities or institutions. The goal is to prevent, detect, and respond to such incidents of sexual assault and abuse of an incarcerated individuals.

The Stanislaus County Sheriff's Department maintains a zero-tolerance regarding incarcerated persons sexual assault, staff sexual abuse, sexual misconduct, and/or sexual harassment toward any incarcerated individual. The Department is working continuously to implement new policies, training requirements for staff and incarcerated persons, and developing procedures for detecting, preventing, and responding to incidents of sexual abuse and sexual harassment. Ensuring perpetrators are punished where an investigation substantiates such allegations.

Introduction

The Stanislaus County Sheriff's Department is committed to reviewing PREA incidents from multiple perspectives including: training, policies, procedures, staffing, facility construction and surveillance technology use with the ultimate goal of identifying problem areas, applying appropriate corrective solutions to make improvements.

The Stanislaus County Sheriff's Department is making statistical data available to the public on an annual basis. These findings are published and posted to the Department's website. The Department believes that by providing this information to the public, it will clearly show the number of cases received annually, the findings of such allegations, and the constant efforts we make to detect, investigate, and prosecute cases accordingly.

In addition, the United States Department of Justice (**DOJ**), Bureau of Justice Statistics (**BJS**), and the United States Census Bureau are collaboratively working together to collect data from jails, prisons, and juvenile facilities each year. This is in their efforts in meeting the PREA requirement of a comprehensive statistical review and analysis with regards to the incidences and effects of prison rape. This report contains definitions as specified on the Survey of Sexual Victimization (**SSV**) provided by DOJ BJS. The collection of data includes all incarcerated persons and staff-on-incarcerated individuals incidents related to nonconsensual sexual acts, abusive sexual contact, sexual harassment, staff sexual misconduct and staff sexual harassment.

Summary

The Stanislaus County Sheriff's Department continues to bring awareness to incarcerated individuals of their rights against sexual abuse in our detention facilities. In reviewing incidents from the last year it appears that most of the incidents occurred inside of the victim's cell. Title 15 stipulates that no video monitoring is allowed inside the incarcerated persons cell. After each substantiated and unsubstantiated sexual assault incident, the area where the abuse occurred is looked at to assess if there are any areas which enabled the abuse; so far, no enabling factors have been identified. Based on the aforementioned reviews no problem areas have been identified. Staff security rounds are the primary deterrent to potential perpetrators and the importance of this has been stressed to our staff.

We are continuing the process of educating staff on PREA, to include their roles and responsibilities in preventing, detecting, and responding to sexual abuse in our facilities. While our past training has helped to minimize allegations, there is always room for improvement. In order to prevent future claims of sexual harassment our staff is also trained on how to professionally communicate with the incarcerated individuals within our facilities.

These corrective actions will be conducted on an ongoing basis, bringing the agency closer to our goal of zero incidents of sexual abuse/harassment within our Adult Detention Facilities.
